

HASEEB RAZA

Flat No. 15, Street No. 1, Gate 3, Arid University, Rawalpindi | 0306-6576763 | haseebraza.engineer@gmail.com

Passionate **Software Engineering** student with practical experience in **Dot Net development, Android technology**, and a drive to embrace new technologies.

EDUCATION

BS Computer Science | University Institute of Information Technology | Arid Rawalpindi
Expected 2026

- Distinguished member of university's Software Society
 - **CGPA : 3.8**
-

EXPERIENCE

.Net Developer | Freelancing | Rawalpindi, Pakistan
June 2024-Dec 2024

Built a Gym Management desktop application with **C#** and **SQL Server**, implementing relational data handling and transaction control by following the clean architecture

Android Developer | Bitzone Technologies | Rawalpindi, Pakistan
Aug 2023-Jun 2024

Developed and maintained chat applications using Android Studio (Kotlin), leveraging **APIs** and **multi-threading**, and following the **clean architecture**

PROJECTS.

GYM Managements System | .NET Framework | C# | Visual Studio | SQL Server

- Integrated **Microsoft SQL Server** to securely manage user authentication, and relational data integrity.
- Designed and developed a Windows Forms-based Gym Management System to handle customer registration, membership plans, and payment tracking.
- Developed features to export data into **Excel files and managed database** connectivity efficiently.
- **Utilized third-party libraries** (e.g., **Excel Interop or EPPlus**) to implement data export functionality to Excel for reporting and backups.

Rent a House Management System | .NET Framework | C# | Visual Studio | SQL Server

- Developed a desktop application to manage property rentals, allowing users to list houses for rent and manage tenant records, bookings, and rental history.
- Implemented **CRUD operations** for houses, tenants and rental agreements using **Microsoft SQL Server**.

Real Time Chatting App | MVVM architecture | Android Studio (Kotlin)

- Integrated with **Firebase** for authentication, image storage, and real-time chat data management.
 - Implemented local data persistence using **Room database** for efficient storage and retrieval of chat.
 - **Integrated Ad Mob** for monetization purposes and integrated Live Data with **coroutines** for efficient data handling
-

SKILLS

- Database (SQL, SQL lite ,Firebase)
- .NET Framework (ASP.NET MVC)
- Android Development (Kotlin, MVVM)
- Git and GitHub
